

Assignment -3

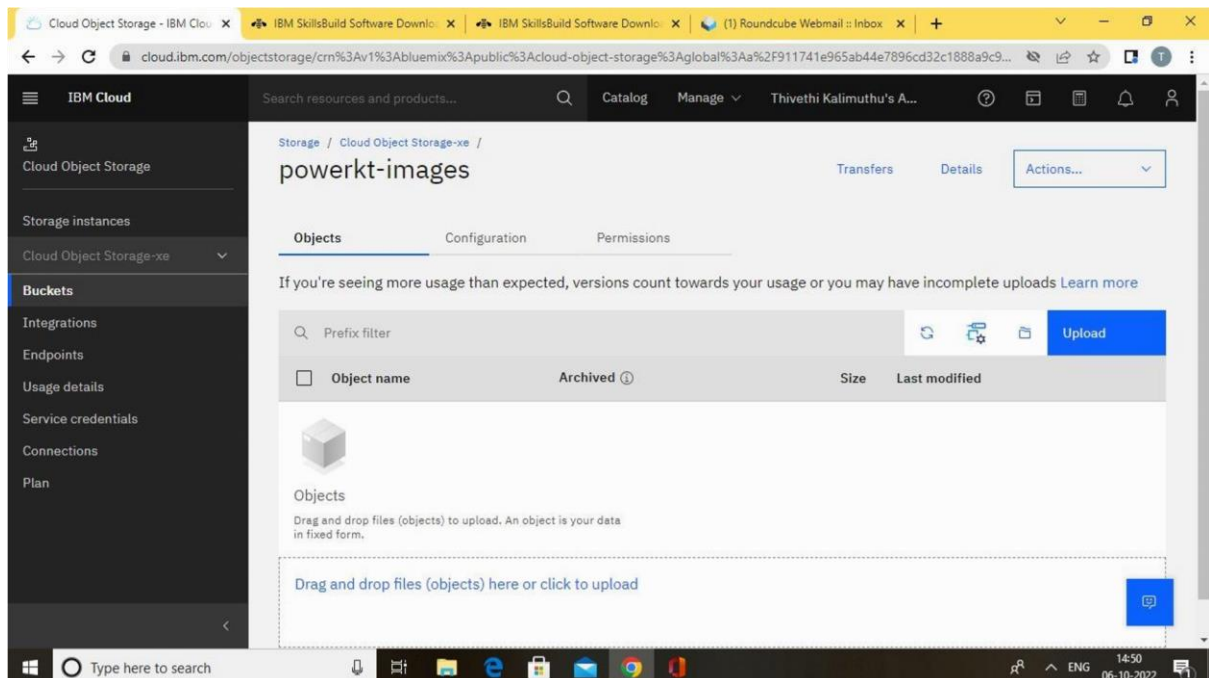

HTML Programming

Assignment Date	08 October 2022
Student Name	G T Tharavi Sree Nisha
Student Roll Number	962219106063
Maximum Marks	2 Marks

Question -1:

1.Create a Bucket in IBM object storage.

Solution:

Question -2:

2.Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

Solution:

<DOCTYPE html>

<html>

<head>

<title>First Website</title>

</head>

```
<body>

  <h1>This is Images</h1>
  

</body>

<body>

</body>

<body>

</body>

<body>

</body>

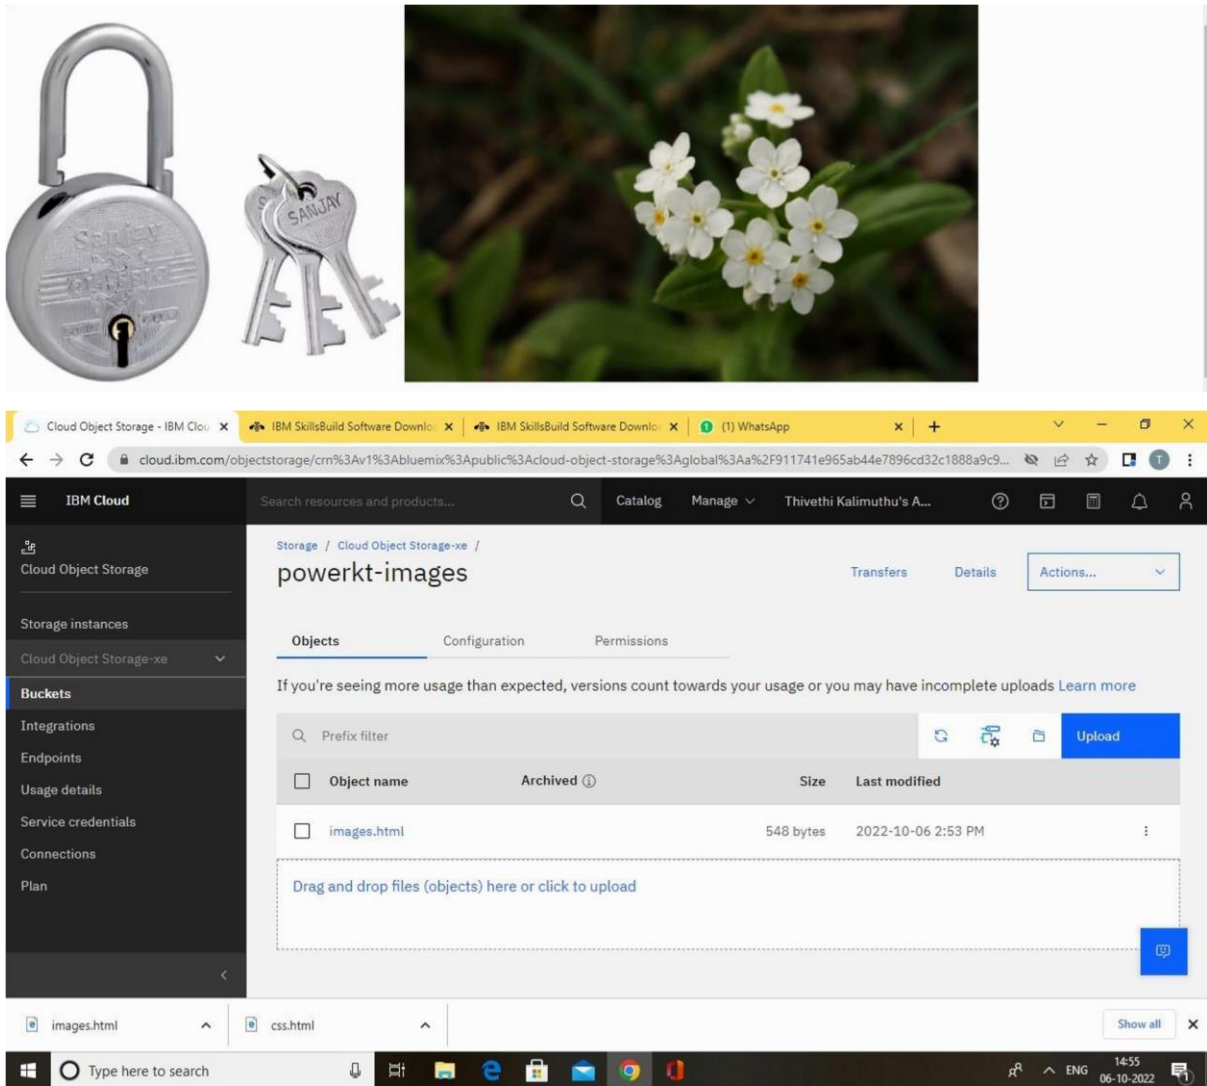

<body>

</body>

</html>
```

Question -3:

3.Upload a css page to the object storage and use the same page in your HTML code.

Solution:

<DOCTYPE html>

<html>

<head>

<title>First Website</title>

</head>

<body>

<h1>This is a heading</h1>

<p>This is all images</p>

```
        
    </body>

    <body>

        
    </body>

    <body>

        
    </body>
    <body>

        
    </body>

    <body>

        
    </body>

</html>

<!DOCTYPE html>

<html Lang ="en">

<head>

    <meta charset="UTF-8">

    <meta http-equiv="X-UA-compatible"content="IE=edge">

    <meta name="viewport" content ="width=device-width,initial-scale=1.0">

    <link rel= "stylesheet"

    <title>document</title>

</head>

<body>
```

```
<label for="files">select multiple files</label>

<input type="file" id="files" multiple="multiple" accept="image/jpeg,image/png,image/jpg">

<output id="result">

<script src="script.js"></script>

</body>

<files.length;i++)[    if(! files
[i].type.match("image"))continue;    const
pic reader new filereader():

    pic reader.addeventlistener("load",function(event){
const picfile = event.target;
```

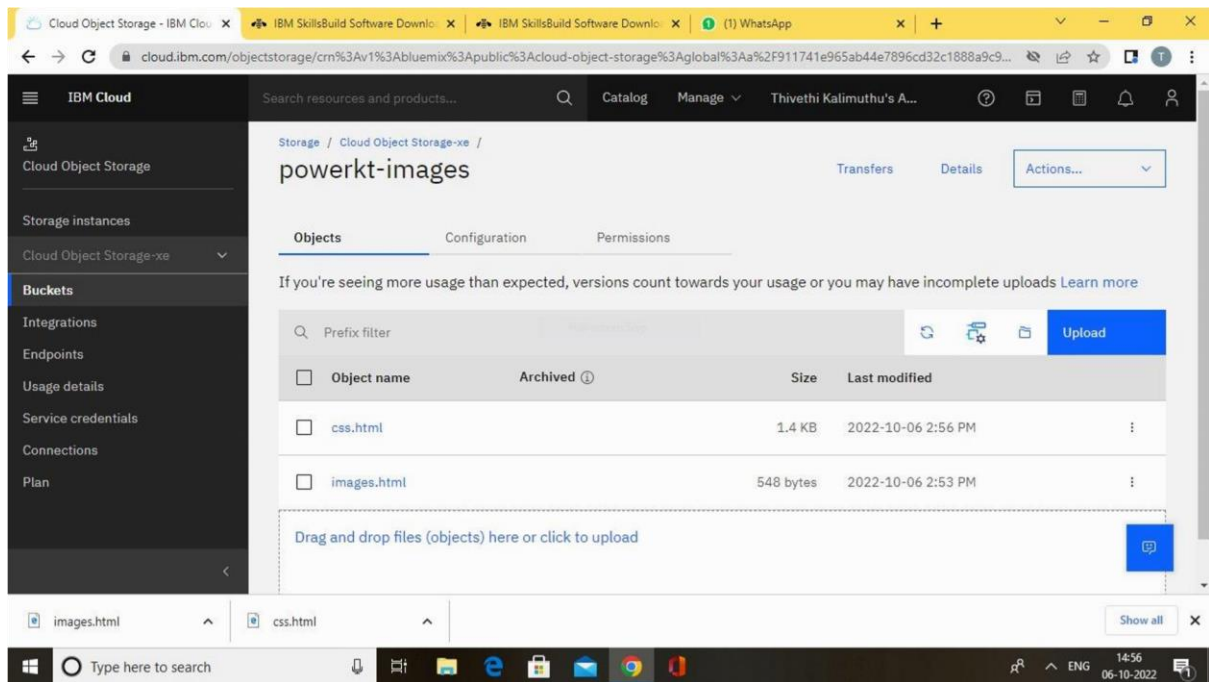

```
const div = document.createelement("div");
```

This is a heading

This is all images

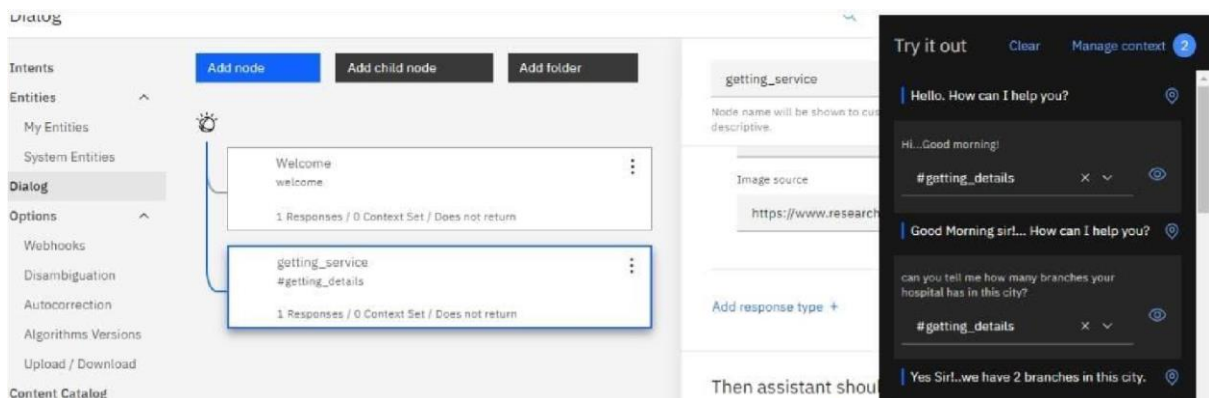

document select multiple files No file chosen

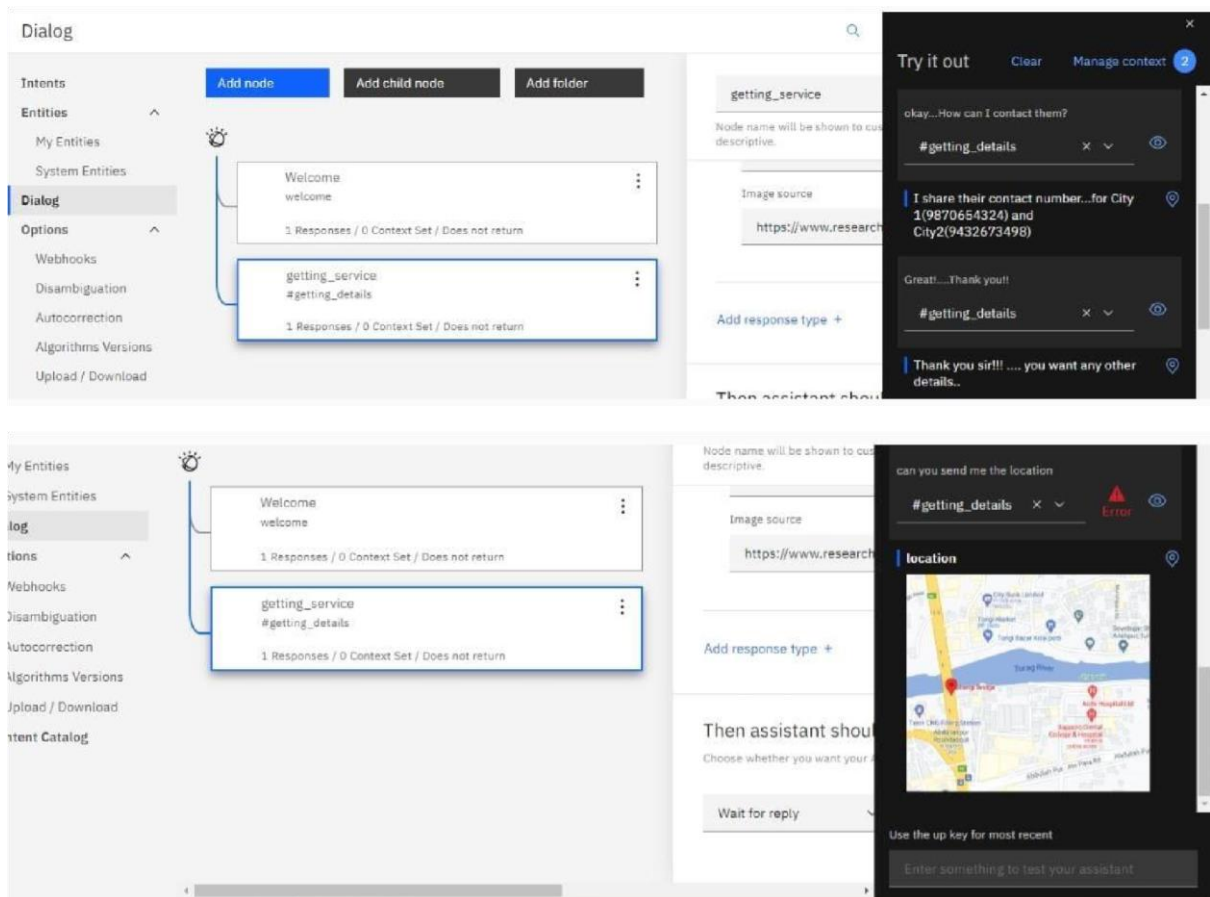

Question -4:

4.Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

Solution:

Question -5:

5.Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.

Footer

Solution:
